G.C.E. O/L (2011)- 4A's 4B's 1C

PROJECTS

1ST YEAR HARDWARE PROJECT

Automated Fodder Growing System:

Developed a system to automate the fodder growth by providing suitable conditions for plant growth.Used Atmega 32A Microcontroller

2ND YEAR SOFTWARE PROJECT

Offer Me – We are developing an e-commerce web application along with a mobile application to give the awareness to customers about several offers from several suppliers. This will be a platform for suppliers to advertise their promotions and customers to order the offered items instantly. I am responsible for developing the admin section of the web application.

OTHER EXPERIENCE

- IEEE WIE Leadership Summit 2017 | Sri Lanka University Representative and Winners of Booth competition.
- Hack Moral V1.0 Coding Competition 2018 | Participated.
- Participated in the Mentoring Program at IFS, organized by the Faculty of Information Technology.
